Do you want to take a final look? Does anyone else on the team need to see it?

Thanks ng

Subject: Web page

Nancy,

Web page is taking a higher priority right now. I need to work with on this sooner than other items.

Doug and John,

I added some clarifying language that we think makes this stronger. Thanks

As part of EPA's standard process and our continuous efforts to review and refresh the our website, EPA updated the International Climate Partnerships page to reduce redundant text and to make the page easier for the public to read. EPA also updated the Adaptation Collaboration page to remove broken links from pages that were impacted by the Presidential transition (the links went to the previous Administration's webpage, which has been archived). Each of these updates is routine and in line with the Agency's web guidelines.
